सब कहाँ? Sab kahān?

Urdun kieliset tekstit Mirza Ghalib (1797-1869) Käännökset Eero Hämeenniemi

I. Nīnd uski hē

Nīnd uskī hē dimām uska hē raten uskī hēm Terī zulfen dziske bāzu pär parīšān hogain Uni on hänen, kunnia hänen ja hänen ovat yöt, jonka käsivarrelle hiuksesi hajoavat.

II. Kisī kom deke

Kisī kodeke dil koi navāsadz e fughan kyom ho Na ho zdab dil hī sine mem to fir munh mem dzabān kyom ho? Annoit sydämesi pois, miksi nyt laulat murheellisia lauluja? Tulet toimeen ilman sydäntä, mihin siis tarvitset kieltä?

III. Sab kahān?

Sab kahān kuch lālah o gul mem numāyam ho gain Khak mem kyā sūraten homgī ki pinhan hogain Missä he kaikki ovat? Jotkut puhkeavat kukkaan tulppanina tai ruusuna, mutta kuinka monet kasvot jäävät ikuisesti tomun peittoon?

IV. Nehīn bahār ko fursat

Nehīn bahār ko fursat na ho bahār to hē Tarāyat i chaman ō khūni e havā kahie Kevät on kohta ohi, mutta entä sitten, sillä vielä se on täällä. Laula sen tuulista, sen vehreydestä.

V. Havā mem šarāb kī tasīr

Fir is andāz se bahār āi Ki hue mehra tamāshāi

Ki zamīn hogai hē sär to sär Rukash e satah i charkh i mīnāi

Sabze ko dzab kahīm zagah na milī Ban gaya ru e āb pär kāi

Sabdzā o gul ke dekhne ke lie Chasm e nargis ko dī hē bīnāi

Hē havā mem šarāb kī tasīr Badāhnošī hē bād paimāi Kevät on tullut, ja auringon ja kuun silmät loistavat taas kirkkaina.

Vihreä maa heijastaa sinistä taivasta.

Luonto pukeutui vihreään vaippansa kun ruoho nousi kosteasta maasta.

Jumala avaa sokean narsissin silmän, jotta sekin voisi katsella ruohoa ja kukkia.

Ilma juovuttaa kuin viini. Jokaisella hengenvedolla tunnet sen maun.

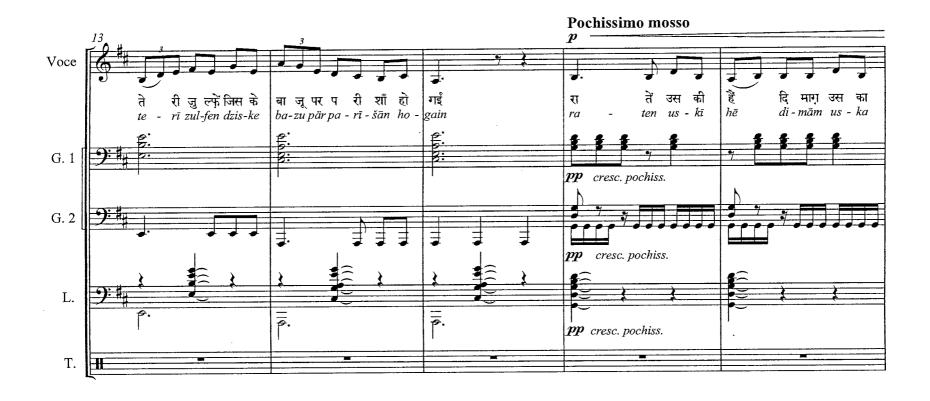

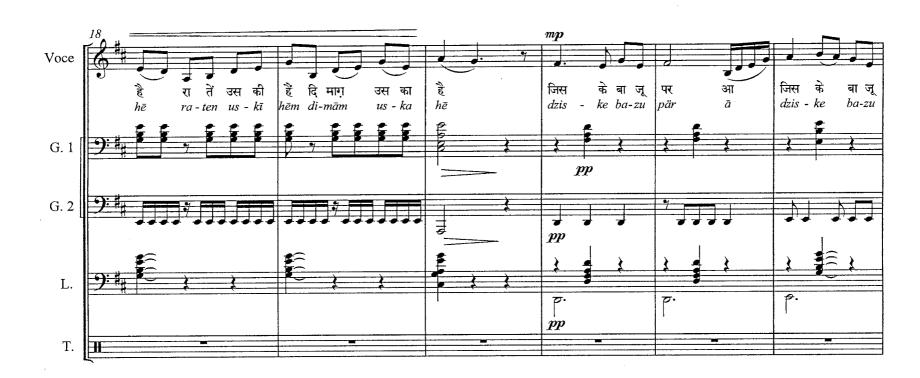

And Phonostonol Ansic Lindons
