"Odi et amo"

For three guitars (1986)

Juan Antonio Muro

"Odi et amo. Quare id faciam fortasse requiris.
Nescio. Sed fieri sentio et excrucior."

Gaius Valerius Catullus

EXPLANATION OF SYMBOLS

	approximate duration in seconds		play irregularly
	play regularly		degrees of speed
	play hysterically and violently, very fast irregular groups of notes. Change the order of the notes constantly.		As a contrast, play a very regular line gently, but also fast.
	tremolo. Use a finger nail as a plectrum (↓ ↑) in a very fast and continuous movement and damp the string at the same time as for pizz.		press the string in the normal fret (VII 4) but stretch it crosswise in order to raise the pitch a half tone, then play, releasing the string to its normal position and let the basic note (A) sound.
	normal tremolo. Can be played as above without damping the strings.		left hand only. Strike the string on the given pitches with fingertips without using right hand.
	scratch any base string with nail in lengthwise direction		improvise damped sounds on the first string above the 19th fret. Left hand presses slightly and right hand plays normally.
	"golpe" with the thumb (or any other finger) on the soundboard.		"golpe" with any fingernail.
	"sulla tastiera". Tap with thumb of right hand on the fingerboard over the 3 base strings.		

The famous epigram of the Roman poet Gaius Valerius Catullus serves as a point of departure for the composition of this work, as a sort of pretext for expressing certain images and a range of feelings that the conflict inherent in the duality exposed by Catullus may suggest. The short development of the dramatic, lyric, sensual (or amiable ironically joyful) elements that appear in the work (elements not all expressed by the poet in the epigram, but essential to his aesthetics) leads into situations of formal and even stylistic conflict, provoking a certain eclecticism that has as its aim to underline the ambiance of restlessness and contradiction deliberately sought for in this work.
